## PROJECTS

---

- **Personal Portfolio** - [[Live Demo](#)] ([Source](#))
  - **Objective:** Developed a personal portfolio website to showcase my web development projects and skills to potential employers.
  - **Technologies used:** Utilized HTML5 for markup , CSS3 for styling and responsive design, and JavaScript for dynamic management.
  - **Role:** Sole developer , responsible for design, coding, and deployment.
- **Weather Forecasting Website** - [[Live Demo](#)] ([Source](#))
  - **Objective:** Create a website to provide real-time weather updates. It allows users to manually input a specific location for which they want to view weather forecasts.
  - **Technologies Used:** JavaScript for scripting client-side logic, CSS3 for styling and responsive-design, and HTML5 for the structure.
  - **Role:** Led the front-end development and managed API integration, ensuring accurate data presentation and responsive design
- **SPS – Stone , Paper, Scissor game** [[Live Demo](#)] ([Source](#))

## WORK EXPERIENCE

---

### Front-end Developer intern, Prodigy infotech, April 2024 – May 2024:

Designed and developed front-end layouts with HTML5, CSS3, and JavaScript, ensuring visually appealing and functional user interfaces. **Acquired skills in responsive design, JavaScript (ES6), Git, and Netlify.**

### Front-end intern, CodSoft, May 2024 – June 2024:

Contributed to developing responsive frontends using **HTML5, CSS3, and JavaScript (ES6)**, completing three beginner-level Projects (Working on).
